“Representing Quality Engineered Products Since 1984”

AURA Gas Controls	Precision Pressure Regulators for gas & liquids with metal to metal seals for high leak integrity Dursan™ inert & anti-corrosive technology; Lifetime Warranty with good deliveries
BADGER Meter	Flow Meters: Magnetic, Turbine, Disc, Coriolis, Oval Gear, & Piston styles; Batch Control Systems; Flow Transmitters;
EATON Filtration (Hayward) (Ronningen Petter)	Strainers: Simplex, Duplex, Y, & Fabricated; Automatic Self-Cleaning Strainers Absolute Bag Filtration Systems (To 0.5 micron); Custom Vessels; Replacement bags Mechanical Self-Cleaning Filter Systems (MCF/DCF) down to 25 micron Backwashable/Tubular Filter Systems (AFC) to 1 micron for self-cleaning
ENERAC	Portable Combustion Analyzers for boilers, kilns, engines; O ₂ , CO, CO ₂ , NO, NO _x , SO ₂ , Printer
HAYWARD Flow Control	PVC/CPVC/PP/KYNAR Valves – Ball, Butterfly, Diaphragm, Solenoid; Actuator options Diaphragm Metering Pumps with PVDF Head & digital operation; Pulsation Dameners
MTS Systems Corp.	Magnetostrictive Liquid Level: +/- 0.001” for custodytransfer use; NO Calibration Analog style (< 40 ft) or Digital style (< 60 ft.) with 2 different Levels & Temperature
Practical Instrument Electronics (PIE)	PIE Calibrators for Thermocouples, Rtd, V, mV, mA, & Pressure w/unique Diagnostics Single & Multi-Parameter Portables, 3 Year Warranty; Recalibration of ALTEK units
RKI Instruments	Gas Detection: Portable Units for Confined Space Entry, VOCs, and Testing of Equip. Fixed Systems for single & multi-point detection; Cal Gases; (GasTech replacements)
ROSEMOUNT (Emerson Process Management)	Liquid Analyzers (pH, ORP, Ozone, Turbidity, Resid Chlorine, Fluoride, Conductivity) Gas Process Analyzers; Gas & Liquid Chromatographs; BTU Analyzer Combustion Analyzers: Oxygen (O ₂), CO, NO _x , & Opacity; CEMS Systems Authorized Distributor for Rosemount Pressure & Temperature Transmitters;
SIERRA Instruments	Thermal MASS Flow; Ultrasonic Strap-on Meters - Fixed & Portable; Flow Switches Vortex MASS Flow Meters: Insertion & Inline; Capillary Mass Flow Controllers
Southwest Filter	Gas & Liquid Filters, Separators & Filter Separators; Activated Carbon Filters
Universal	Silencers, Air Filters, & Filter Silencers
WARREN Controls	Globe Control Valves (1/2” - 12”); E-Ball Rotary Valves (1”- 8”); Lever Valves, Vac Breaker Bronze, Cast Iron, CS, 316SS, Special Alloys; Pressures to 740 psig, Temperatures to 800F
Wyatt Engineering	Flow Tubes and Venturi Tubes for flow measurement; AWWA approved Pam True - Inside Sales/Tulsa; Doug Buxton – Outside Sales

DISTRIBUTOR ARRANGEMENTS

ARGO GAS	Calibration Gases for Analyzers; Custom Blended Chromatograph Gases Complete Portable Kits with carry case, bottles, regulator, and tubing
BADGER – Blancett	Turbine Flow Meters (0.5-10”) for liquids & Gases (Hi Temp & Pressure)
EATON FILTRATION (Ronningen Petter)	Mechanical Self-Cleaning Filter Systems down to 25 micron Backwashable Cartridge Systems, down to 1 micron
EATON FILTRATION (Wright-Austin)	Gas/Liquid Mechanical Separators for air, gas, or steam flows Filter/Separators; Coalescers; Exhaust Heads, Drain Traps
JMS SOUTHEAST	Special Temperature Sensor Assemblies; Thermowells & Extension Wire
NOSHOK	Pressure Transducers, Gauges, & Digital Switches; Manifold Valves Bimetal Thermometers; Electric Solenoid & Needle Valves (316SS)
PRECISION DIGITAL	Digital Process Displays & Trident Panel Meters; MeterView Software 1/16 & 1/8 din Nova Controllers; Fluidwell Totalizers
VAISALA	Transmitters for Instrument Air Dew Point, CO₂, Relative Humidity Moisture Measurement in Natural Gas Transmission Lines Moisture Detection in Liquid Lube Oil Systems; Weather Monitoring

COMPANY OVERVIEW

Seltech, Inc. was founded in December 1984, in Tulsa, OK as a Manufacturer's Representative. Our mission is to offer high quality products from companies that are technical leaders in their fields and produce innovative equipment to solve industry's problems. Seltech's Sales Engineers are factory trained to consult with customers and to assist in product specification, purchase, installation, startup, and training of plant personnel. We have several Mechanical Engineers on staff and our time for sales and service assistance is typically included in the competitive cost of our equipment. Our goal is to become a vital partner in our customer's daily operations.

In December 1990, growth in the Arkansas market fueled the expansion of a Little Rock, AR branch office to serve customers in Arkansas, western Tennessee, and northern Mississippi. We believe that Service and Dependability along with Quality equipment are keys to our future success and growth. Our office is set up for a 7 day/24 hour response to customer's needs for technical assistance.

Please feel free to call and discuss your next process control, environmental monitoring, or filtration-related application with us. We look forward to working with you and your company in the years to come.
